Academic Program and Course Description Guide

2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. Program Vision

Remember to see the program as stated in the university prospectus and website.

The academic program description provides a necessary summary of the most important characteristics of the program and the learning outcomes that the student is expected to achieve, demonstrating whether he has made the most of the available opportunities. It must be linked to the academic program. The Department of Islamic Belief and Thought seeks to highlight the foundations of the Islamic religion, deepen belonging to Islam, and link the Muslim to the two sources, the Qur'an and Sunnah, and give him insight into the origins of moral and civilizational values in them, in order to build and protect him in belief, thought, and behavior from the intellectual currents opposed to Islam.

Highlighting the comprehensive view of Islam as a comprehensive approach to all aspects of life, based on faith in God, and getting rid of the partial view of Islam that limits it to some aspects of life.

2. Program Mission

State the program's mission as stated in the university's bulletin and website.

Among the tasks of the Department of Islamic Doctrine and Thought are:

Graduating competent students specialized in the Islamic faith, the Prophet's hadith, interpretation, and Islamic thought

Demonstrating the superiority and distinction of Islam over intellectual doctrines and ideologies in all matters of life and demonstrating its ability to lead them in the face of the failure of those doctrines and ideologies.

Developing students' skills in the field of scientific research and editing manuscripts in a solid scientific manner.
