Academic Program Description GuideThe curriculum

2024

the introduction:

The educational program is a coordinated and organized package of courses that include procedures and experiences organized into study modules. The primary purpose of the program is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs, such as the External Examiner Program.

The academic program description provides a brief summary of the program's main features and courses, indicating the skills students are expected to acquire based on the program's objectives. The importance of this description is evident in that it represents the cornerstone for obtaining program accreditation. It is written by faculty members under the supervision of the academic committees in the academic departments.

This guide, in its second edition, includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the new developments and changes in the educational system in Iraq, which included a description of the academic program in its traditional form (annual, semester) in addition to adopting the description of the academic program circulated in accordance with the letter of the Department of Studies.TT.M.3/2906 of 3/5/2023 regarding programmes that adopt the Bologna Process as the basis for their work.

In this regard, we cannot but emphasize the importance of writing a description of academic programs and courses.To ensure the smooth running of the educational process.

Concepts and terms:

a descriptionThe programacademic:The academic program description provides a concise overview.According to its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

a descriptionThe decision:Provides a concise summary of the main course features and the learning outcomes the student is expected to achieve, demonstrating whether the student has made the most of the learning opportunities available.It is derived fromProgram description.

Program vision:An ambitious vision for the future of the academic program to be advanced, inspiring, motivating, realistic, and applicable.

Program message:It briefly explains the objectives and the activities required to achieve them, and it also identifies the paths and directions of the program's development.

Program objectives:These are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum structure:All courses/subjects included in the academic program according to the approved learning system (semester, year, Bologna track), whether required by (ministry, university, college, or scientific department), along with the number of academic units.

Learning outcomes:A consistent set of knowledge, skills, and values acquired by the student after successfully completing the academic program. The learning outcomes for each course must be defined in a manner that achieves the program's objectives.

Education strategiesand learning: They are the strategies used by a faculty member to develop student teaching and learning, and they are plans followed to achieve learning objectives.Describe all activitiesSafiya And the non–classroomTo achieve learning outcomesFor the program.
