Program and Course Description Guide

2026

:the introduction

The educational program is a coordinated and organized package of courses that includes procedures and experiences organized into course vocabulary. Its main purpose is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs, such as the external examiner program.

The academic program description provides a brief summary of the program's main features and courses, indicating the skills that students are working to acquire based on the academic program's objectives. The importance of this description is evident in that it represents the cornerstone for obtaining program accreditation, and it is written by the teaching staff under the supervision of the scientific committees in the academic departments.

This second edition of the guide includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the developments and changes in the educational system in Iraq, which included a description of the academic program in its traditional form (annual, semester system), as well as adopting the generalized academic program description according to the Department of Studies' letter T M٣/٢٩٠٦ dated ٥/٣/٢٠٢٣ with regard to programs that adopt the Bologna Process as the basis for their work. In this regard, we cannot but emphasize the importance of writing descriptions of academic programs and courses to ensure the smooth running of the educational process.

:Concepts and terminology

Academic Program Description : The academic program description provides a concise summary of its vision, mission, and objectives, including an accurate description of the targeted learning outcomes according to specific learning .strategies

Program Vision .١

.Remember to view the program as stated in the university's newsletter and website
The academic program description provides a concise summary of the program's key features and the expected learning outcomes for students, demonstrating whether they have made the most of the available opportunities. It is essential to link these outcomes to the academic program, and the Department of Quranic Sciences strives to achieve this within the college's vision for the Department of Quranic Sciences. The college should become a large specialized university concerned with Qur'anic studies and their dissemination in society, to be an academic and knowledge-based reference, striving to establish knowledge resources that draw from the essence of the Holy Qur'an and its rich language, from the references of Muslims in Qur'anic sciences, language, and . interpretation in general

Program message .٢

.Remember the program's message as stated in the university's newsletter and website
One of the tasks of the Department of Qur'anic Sciences is to employ plans and procedures related to Qur'anic knowledge, the Prophetic Sunnah, the methodology of the Ahl al-Bayt (peace be upon them) and their sincere companions who learned from them, the good companions of the Messenger (peace and blessings be upon him) and the righteous predecessors, for a comprehensive academic, educational, intellectual and practical methodology that establishes a culture of reform, building society, love of the .homeland, pride in identity and belonging

Program objectives .٣

.General statements that describe what the program or organization intends to achieve
Preparing distinguished educational teaching staff with Islamic Qur'anic culture, who undertake the task of building generations specialized in the necessary sound .knowledge
Preparing a generation that understands the cognitive dimensions of the Holy Quran, .enjoys its shade, and acts according to its enlightening guidance
Providing secondary schools with Islamic education teachers who are capable of having .a constructive spiritual influence on students

Program accreditation .٤
?Is the program accredited? And by which body no

Other external influences .٥
?Is there a sponsor for the program Ministry of Higher Education and Scientific Research – University of Diyala – College of Islamic Sciences (Summer Training)
